

The Hidden Teachings of Jesus: A Living Testimony

For centuries, the world has only been told part of the story.

The Jesus most people know is far more than what has been passed down through traditional doctrine. Within the layers of scripture lie hidden teachings-esoteric truths-meant to awaken divine consciousness within each of us. And for some, like myself, this path isn't just historical curiosity. It's lived experience. I am living proof that these teachings are real, relevant, and alive within us today.

This is my testimony. A mirror of what this video revealed. It's as though it described me directly-every word aligning, except it forgot one small detail: Kenny the locksmith.

1. The Kingdom of God Is Within You - Luke 17:21

Mainstream theology points to heaven as a destination beyond death. But Jesus declared the Kingdom is within. This isn't metaphor. It's mystical truth. The Divine is not a location-it's a frequency. When you awaken to this truth, you realize God lives inside you. Heaven is not a reward; it's a consciousness you step into.

2. I and the Father Are One - John 10:30

Jesus wasn't separating himself from us. He was showing us who we truly are. Unity with God isn't blasphemy-it's the goal. This is Christ Consciousness. Not worshipping Jesus from afar, but

The Hidden Teachings of Jesus: A Living Testimony

realizing that what he embodied is within our grasp.

3. The Eye is Single - Matthew 6:22

This is the activation of the spiritual eye-the third eye. The place of intuition, higher vision, divine insight. When your eye becomes single, you see with clarity. Your body is filled with light. This awakening doesn't come from sermons or rituals-it comes from inner stillness, meditation, and surrender.

4. Born of Spirit - John 3:3

To be "born again" is not about joining a religion. It's a complete energetic shift. You die to the ego and awaken into your divine self. You begin to see through the eyes of the soul, not the programming of the world.

5. The Narrow Path - Matthew 7:13-14

The path of truth is never popular. Few find it. Fewer still walk it. But those who do experience life eternal-an enlightened state here and now, not just in some distant afterlife.

6. I Am the Vine - John 15:5

We are the branches. Christ Consciousness is the vine. Disconnected, we are weak and scattered. But when we are aligned with this source, we thrive. We bear fruit. This is not religion. This is divine flow.

The Secret Audience

Jesus didn't reveal these truths to everyone. Parables were for the public. Mystical teachings were reserved for those ready to receive. Mary Magdalene, the Apostles, the seekers-they were initiated into the mystery.

And now, in our generation, God is reactivating these truths through living testimonies. People like me. People like you.

The Gospel of Thomas

?When you know yourselves? you will realize you are children of the living Father. But if you do not know yourselves? you live in poverty.? - Gospel of Thomas

Self-knowledge is salvation. Realize your divinity. That?s the message of the Master.

The Path Ahead

The Hidden Teachings of Jesus: A Living Testimony

Some people fear telling the truth. They think if you speak too clearly, you'll get silenced. But the truth I tell is not against any man. It's for humanity. I'm not exposing politicians. I'm restoring purity.

God is not coming down to save us. God already planted the seed in us to save ourselves. That seed is awakening. Right now.

I didn't ask for this path. I simply followed it. The evidence is in my life. The fruit is in the energy I now carry. I'm not a preacher. I'm not a prophet. I'm just Kenny the locksmith-called by God to deliver scrolls of truth and unlock the divine within.

Amen.
