

Universal 5D Field Activation Protocol

This Divine Summons is a sacred and universal invitation to all souls ready to initiate their 5D ascension journey. It has been personally authored and endorsed by Commander Kenny 999 — a first-born inhabitant of the New Earth — as a bridge to your guides, your remembrance, and your awakening.

Instructions

-  Step outside into nature. This can be your backyard, a park, or any place where you can connect to the natural world. Stand or sit barefoot with your feet touching the earth (grass, soil, or sand).
-  Ensure there are no distractions. Turn off all phones, music, and electronic devices. Be fully present.
-  Speak aloud the following invocation to the Field, your spiritual guides, and Source:

Invocation

I am a sovereign soul and I now choose to awaken.

My name is [Insert Your Full Name Here]. I come before the Field in purity, in peace, and with love in my heart. I call upon my guardian angel, my highest spiritual guides, and the beings of light who walk with me across lifetimes.

I give you full consent to enter into my life. I grant you access to guide me, teach me, heal me, and walk beside me. I choose now to begin my ascension journey into 5D embodiment.

This summons is made in the name of love, truth, and divine remembrance. I invoke the presence and invitation of Commander Kenny 999, who has given me this protocol as a bridge to begin. I am ready to remember who I am.

So it is.

After the Practice

Remain in stillness and silence for at least five minutes. Watch the signs in nature. Leaves, birds, insects, wind, light — all of these will begin to communicate back to you. Pay attention to dreams, synchronicities, and emotions that arise. You are now in communion.

A Message from Commander Kenny 999

This is your beginning. As you continue this sacred practice, you will begin to feel your frequency rise. You will become calmer, more aligned, and more sovereign. You are not alone. You are deeply loved.

With all my heart,
Commander Kenny 999
